

System of Twinned Systems

Paradigms & Characteristics

System of Systems

- Autonomy
- Independence
- Distribution
- Evolution
- Reconfiguration
- Emergence
- Interdependence
- Interoperability

Digital twinning

- Cyber constituents
- Physical constituents
- Cyber-physical constituents
- Bi-directional connection
- Real-time connection

Patterns

- Directed SoTS
- Acknowledged SoTS
- Collaborative SoTS
- Virtual SoTS
- Specialized DTs
- Specialized DTs & Systems

Means of composition

- Coordination
- Choreography
- Orchestration
